

Algebraic Topology: a beginner's course

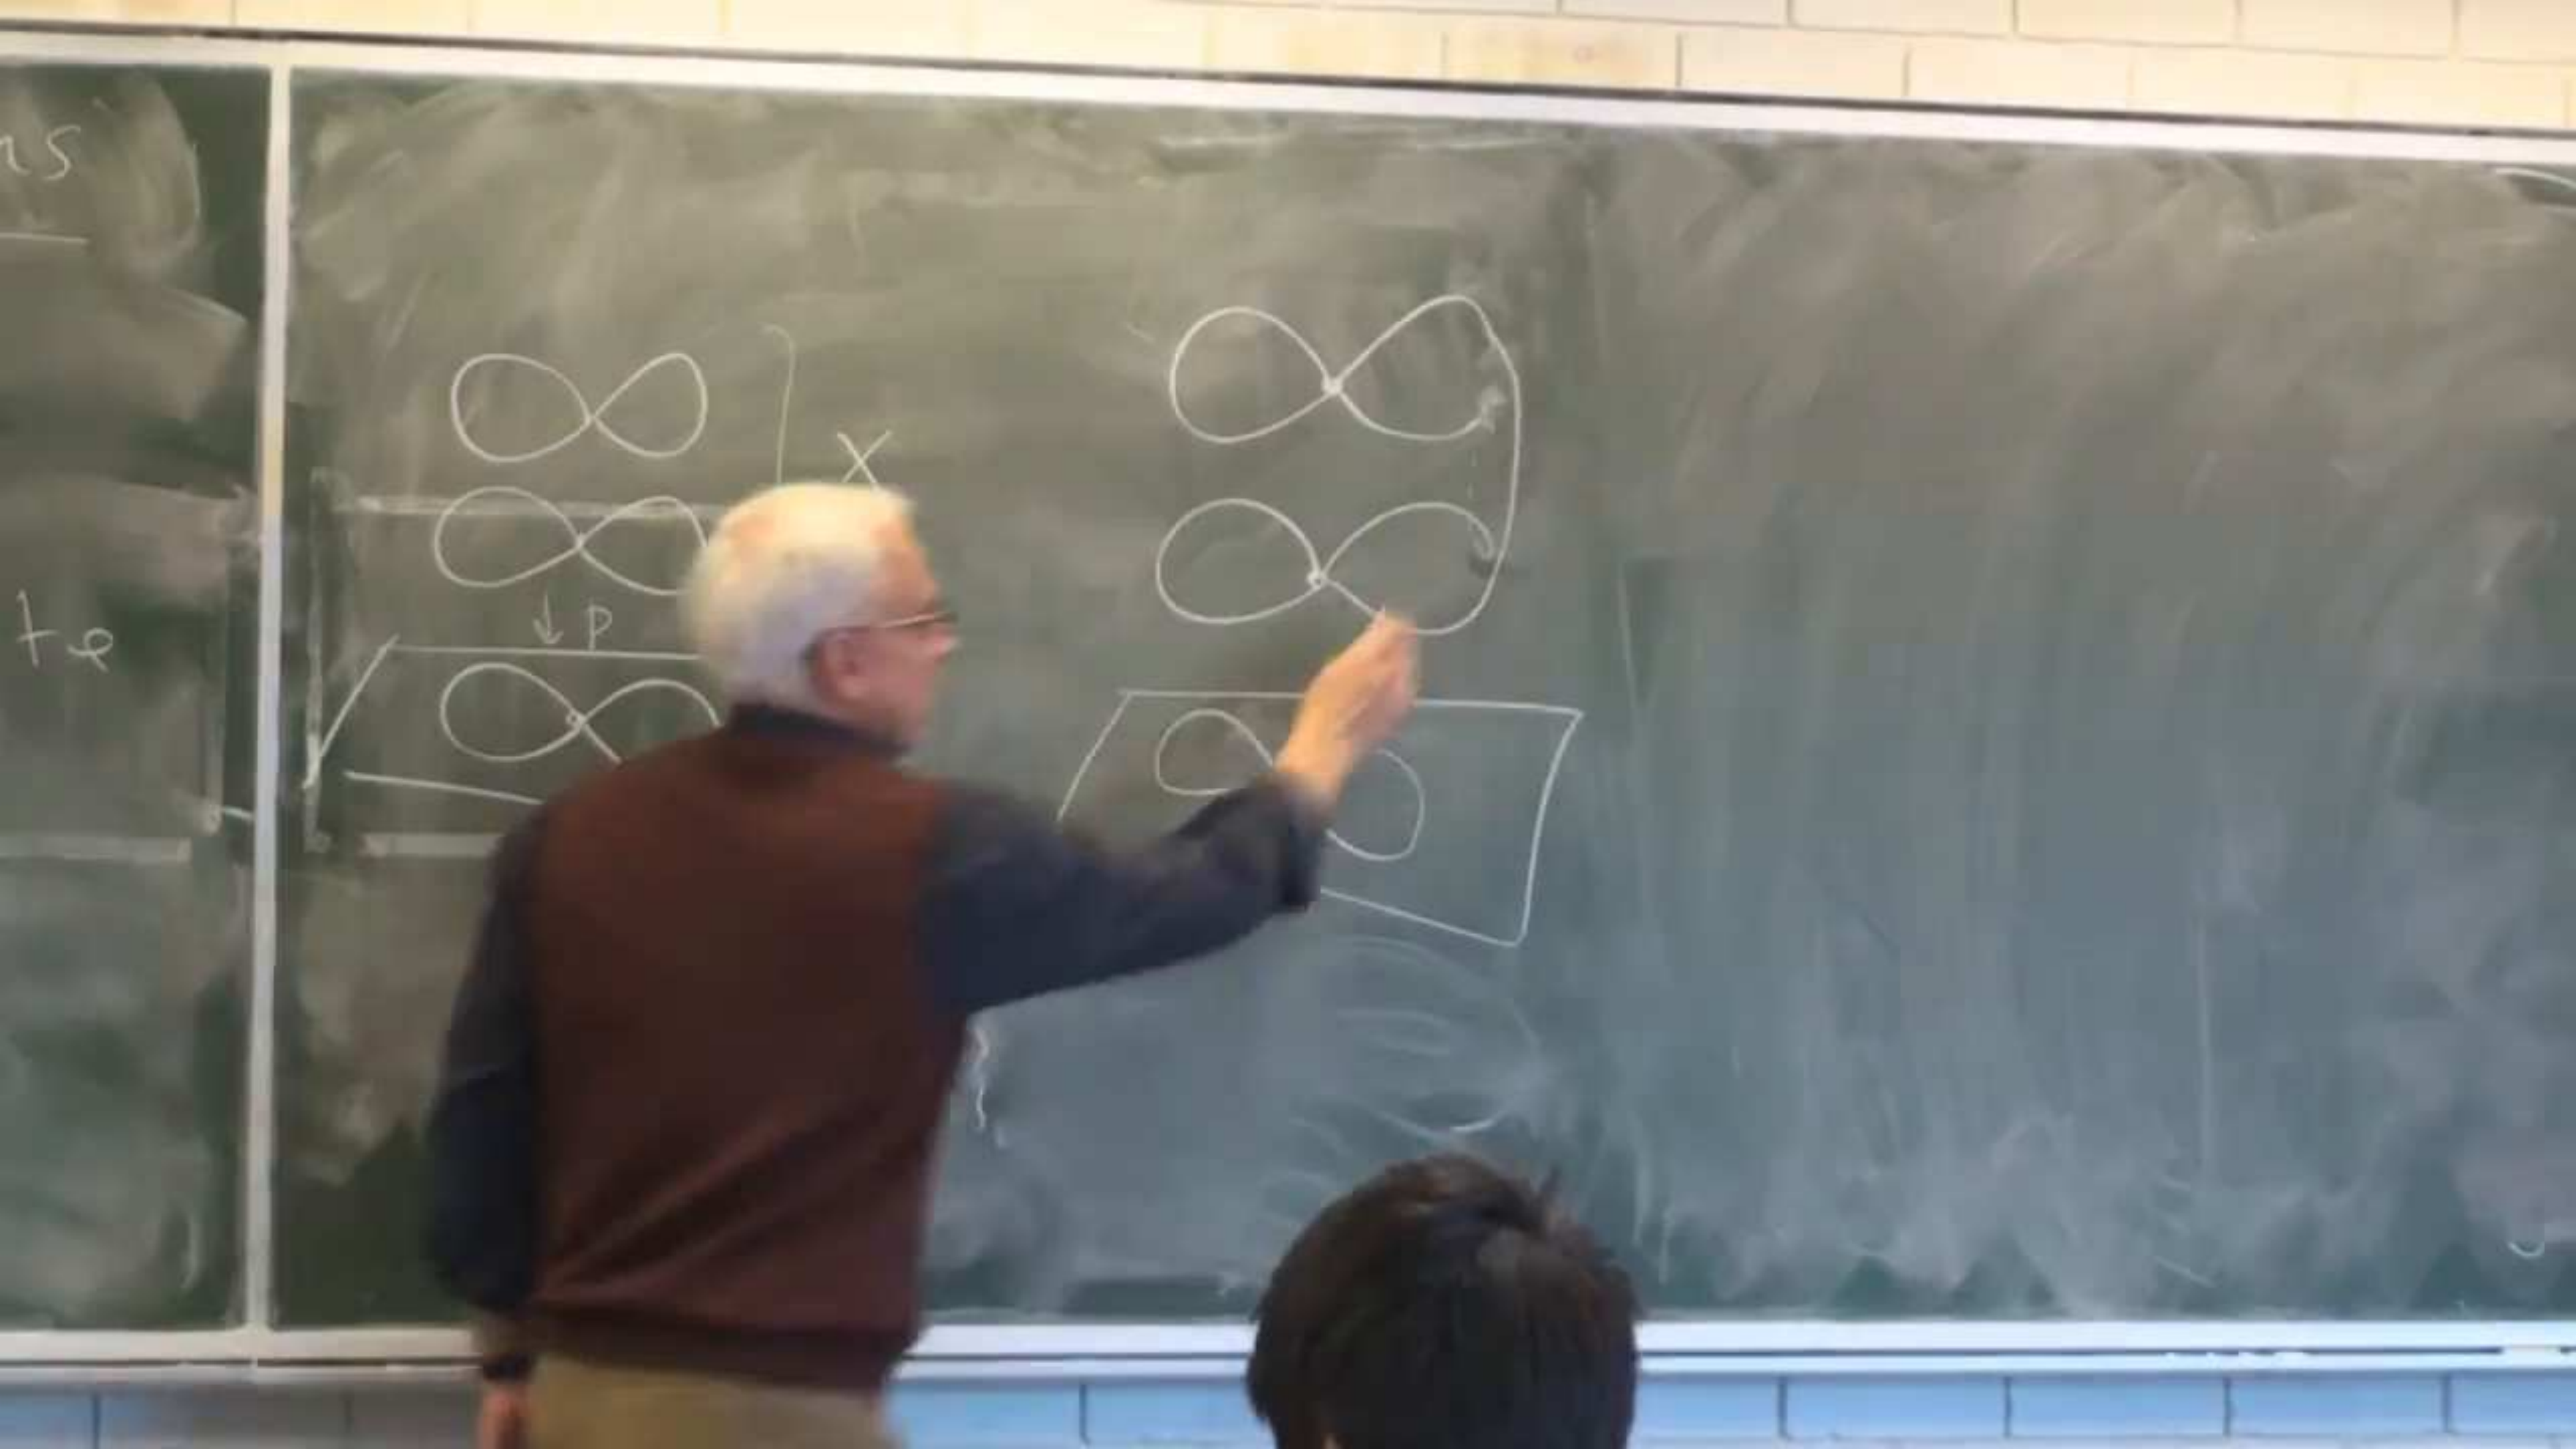

This lecture:

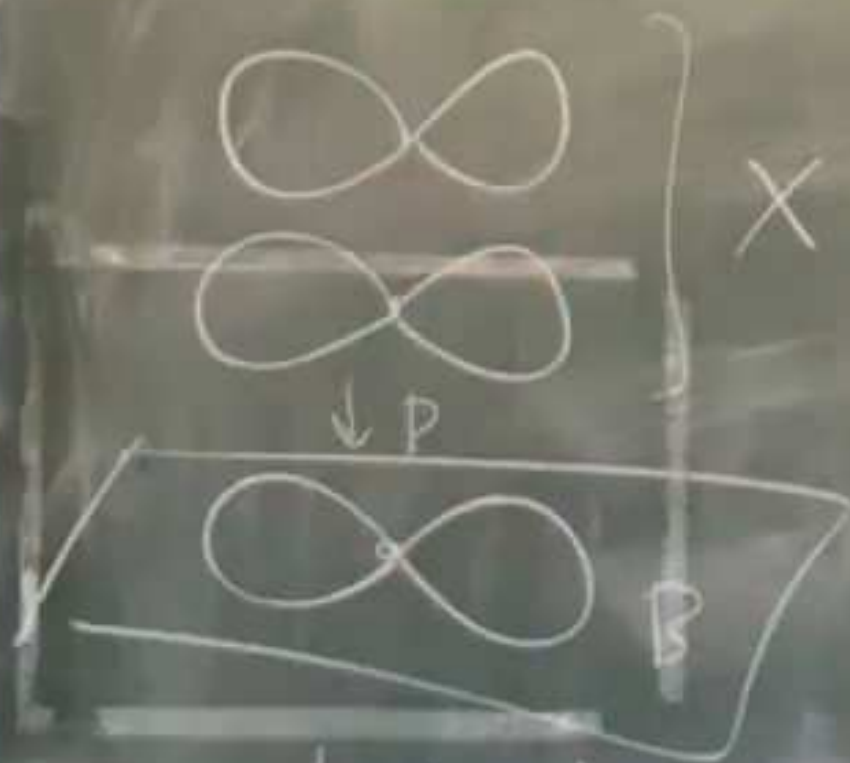

**AlgTop27: Covering spaces
and 2-oriented graphs**

copyright 2012 N J Wildberger

Lecture 27: Covering spaces & $\mathbb{Z}$ -oriented graphs

trivial covering
 $X = B \times \{0, 1\}$

Some

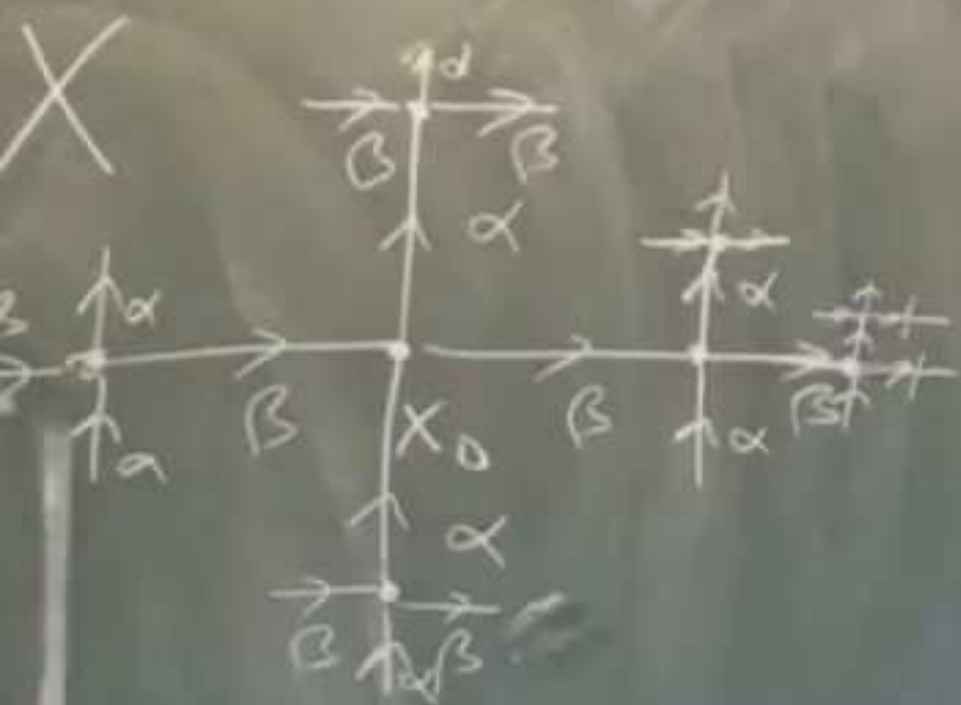

$\downarrow P$

trivial co

$$X = B \times \mathbb{R}$$

All coverings of $B \simeq$

regular infinite
ternary tree
