

Rehabilitation and the Road to University

- **1944-1946 Hospital and Parental home (Goslar)** months of surgery, almost blind begins the process of many operations, suicidal thoughts and a lot of time with himself.
- **1946** After recovery, enrolls in chemistry at the University of Göttingen. Despite his impairments, resumes academic life. Ends chemistry studies due to his practical limitations.
- **Late 1948** His father, Heinrich Heim, returns from Soviet war captivity and moves in with the family. He becomes Burkhard's daily assistant, reading physics texts aloud and writing down equations from dictation.
